**11-13 September, 2024**  
**Cheyenne Mountain Resort**  
**Colorado Springs, CO**

In partnership with

**NATIONAL  
CYBERSECURITY  
CENTER**

## About CFF

Cyber Future Foundation was established to create a brighter and trusted future for cyberspace where digital commerce and innovation can thrive based on trust and respect to individual privacy.

The impetus for the creation of CFF was born from the flurry of cyber incidents that has left a trail of compromised public, private, and corporate security parameters across the globe. With a majority of organizations and individuals accepting the fact that they have had a data breach, global leaders from different spheres of society, such as those of us associated with CFF, saw an urgent need to provide a collective action focused on addressing the challenges of cyberspace in the form of a leadership platform.

The urgency is now, the need is now, and the global requirement for privacy, respect, and trust in cyberspace has never been greater. CFF is a movement toward a brighter future for cyberspace, and all we do in it!

## CFF in an Nutshell

Years of growth and impact

7000+ Members and Growing by the Minute

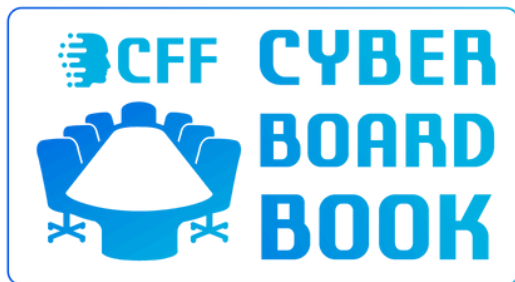

Representation from 16 critical sectors

Presence in 40+ countries

## Our Projects

## Cyber Future Summit is Organized by the Board and Executive Committee of the Cyber Future Foundation at its Annual Meeting

**Valmiki 'Val' Mukherjee**  
Chairman & Founder, CFF

**Dave Marwell**  
Vice Chairman, CFF

**Dr. Diana Burley**  
Vice Provost for Research,  
American University

**Denise Anderson**  
President, Health ISAC

## Executive Advisors

**Diana Kelley**  
CISO, Protect AI

**Danil Kerimi**  
Co-Founder, Edgelands  
Institute

**Karl Mattson**  
CISO, Noname Security

**Jennifer Foy**  
Executive Director,  
NorthBay Adventure

**Usman Choudhary**  
General Manager,  
UIPRE Security Group

## General Counsel

**Peter Vogel**  
Attorney & Counselor at Law,  
Vogel IT Law

# About National Cybersecurity Center (NCC)

The National Cybersecurity Center (NCC), established in 2016, is a champion in the realm of cyber innovation and awareness. Born from the foresight of then Colorado Governor and now US Senator John Hickenlooper, in partnership with academic minds from the University of Colorado Colorado Springs (UCCS) and local community leaders, the NCC has grown into a pivotal resource for both public and private sectors. As a 501(c)(3) non-profit organization, our core mission is to foster cybersecurity resilience and knowledge across society.

This mission is underpinned by our commitment to leadership, collaboration, and education, which we have pursued through initiatives like the Secure the Vote program, Cyber for State Government Program, and the NCC Student Alliance, aimed at equipping the next generation of cybersecurity experts and ensuring the integrity of democratic processes. In response to evolving cybersecurity needs, the NCC has expanded its focus beyond initial reactive measures to embrace a proactive, think tank-like approach towards solving complex cyber challenges. This effort is rooted in our belief that cybersecurity is a collective responsibility, requiring the engagement of all sectors of society to safeguard national and global security.

## National Cybersecurity Center - Cyber Committee Board Representatives

**Rick Crandall**

Chairman  
Donnelley Financial (NYSE:DFIN)

**Mark Weatherford**

General Partner  
Aspen Chartered

**Lt. Gen., USAF (Ret.)

Elara Nova: The Space Consultancy

**Karen Evans**

Managing Director  
Cyber Readiness Institute

**Mark Rasch**

Of Counsel  
Kohrman Jackson & Krantz LLP

**Greg Oslan**

Acting CEO,  
National Cybersecurity Center

**Maj. Gen., USAF (Ret.)  
Kim Crider**

CEO, Founding Partner  
Elara Nova: The Space Consultancy

**Dawn Meyerriecks**

Former Deputy Director  
CIA for Science & Technology

**Tim Kosiba**

President & CEO  
Mountaincrest Consulting LLC

# About Cyber Future Summit

The 9th Annual Cyber Future Summit, presented by the CFF and NCC, focuses on "Security at the Speed of Innovation," reflecting our urgent need to develop cybersecurity solutions that outpace emerging threats.

This summit aims to explore how collaborative efforts spanning public and private sectors, academia, and civil society, underpinned by rapid innovation, can enhance global cybersecurity resilience. It serves as a platform for leaders to share dynamic strategies that anticipate and neutralize threats, ensuring the safety and prosperity of our most critical infrastructures.

Special Program Packages are available for National/Regional and City Trade Delegations

# Delegation Benefits

The Cyber Future Summit offers an excellent opportunity to benefit trade delegations from partner countries. By showcasing their innovation and thought leadership, and providing a platform for investment opportunities, we not only help secure our partners' cybersecurity infrastructure but also create opportunities for them to engage in a broader platform for growth.

Networking Opportunities

Country Innovation Showcases

Thought Leadership Platforms

Collaboration Opportunities

Country Investment Showcases

Matchmaking and Business Meetings

Recognition and Awards
